*63 Glassdrummond Road,
Crossmaglen,
Newry,
BT35 9DY*

It is important that our school has up to date information on your child's medical needs. This will help us to keep your child safe and to make any reasonable adjustments to the school day/school policies and procedures. It is particularly pertinent this year due to the current Covid 19 pandemic. Risk assessments will need to be carried out to reflect our practice should your child have underlying conditions which place him/her at greater risk should he/she contract the virus. Our priority is your child's safety but we assure you that this information will be shared on a 'need to know' basis only with school staff, ambulatory staff and medical staff should need arise.

Name of child.....

Class for 2020/21:

1. Does your child have any conditions requiring medical treatment, including medication?

YES/NO

If YES, please give details:

.....

.....

.....

2. Does your child's condition compromise him/her in relation to the current Covid 19 pandemic? Please see NHS information at the bottom of this form for underlying conditions which pose risk.

Yes/No

If yes, please give details:

.....

Advice taken from NHS website 01/07/20

Coronavirus (COVID-19) can make anyone seriously ill. But for some people, the risk is higher. There are 2 levels of higher risk:

ST. BRIGID'S PRIMARY SCHOOL

Principal: Mrs M Keating

Tel: (028) 30861514
Fax: (028) 30860363

*63 Glassdrummond Road,
Crossmaglen,
Newry,
BT35 9DY*

- high risk (clinically extremely vulnerable)
- moderate risk (clinically vulnerable)

Important

The lists below may not include everyone who is at higher risk from coronavirus and may change as we learn more about the virus.

People at high risk (clinically extremely vulnerable)

People at high risk from coronavirus include people who:

- have had an organ transplant
- are having chemotherapy or antibody treatment for cancer, including immunotherapy
- are having an intense course of radiotherapy (radical radiotherapy) for lung cancer
- are having targeted cancer treatments that can affect the immune system (such as protein kinase inhibitors or PARP inhibitors)
- have blood or bone marrow cancer (such as leukaemia, lymphoma or myeloma)
- have had a bone marrow or stem cell transplant in the past 6 months, or are still taking immunosuppressant medicine
- have been told by a doctor they have a severe lung condition (such as cystic fibrosis, severe asthma or severe COPD)
- have a condition that means they have a very high risk of getting infections (such as SCID or sickle cell)
- are taking medicine that makes them much more likely to get infections (such as high doses of steroids or immunosuppressant medicine)
- have a serious heart condition and are pregnant

Information:

ST. BRIGID'S PRIMARY SCHOOL

Principal: Mrs M Keating

Fax: (028) 30860363

*63 Glassdrummond Road,
Crossmaglen,
Newry,
BT35 9DY*

If your child is at high risk from coronavirus, he/she should have received a letter from the NHS. Speak to your GP or hospital care team if your child has not been contacted and think you should have been.

People at moderate risk (clinically vulnerable)

People at moderate risk from coronavirus include people who:

- are 70 or older
- have a lung condition that's not severe (such as asthma, COPD, emphysema or bronchitis)
- have heart disease (such as heart failure)
- have diabetes
- have chronic kidney disease
- have liver disease (such as hepatitis)
- have a condition affecting the brain or nerves (such as Parkinson's disease, motor neurone disease, multiple sclerosis or cerebral palsy)
- have a condition that means they have a high risk of getting infections
- are taking medicine that can affect the immune system (such as low doses of steroids)
- are very obese (a BMI of 40 or above)

Unlike people at high risk, your child will not have received a letter from the NHS.
